

Faith Christensen
ND, RN

Faith Christensen, ND, RN is a Naturopathic Physician and a Registered Nurse in private practice in the Colorado Springs area specializing in Women's and Children's Health.

Dr. Christensen founded and operated a successful naturopathic clinic in Seattle for several years, and also practiced in Chicago before moving to Colorado Springs. Dr. Christensen focuses on the structural, nutritional, mental and emotional aspects of health.

She strives to find the cause of illness through careful history taking, functional blood work, salivary hormone testing, digestive stool analysis, food allergy testing, and neuro-transmitter testing.

She has taught Craniosacral therapy since 1998 through Integrated Bodywork Institute, VIS Medicine, and as an adjunct faculty at Bastyr University. She has published five manuals for various Craniosacral classes and lectures across the country on health and bodywork.

Prerequisites: CST I and II. CST III recommended but not required.
Visa and Mastercard accepted.
Cancellation will be accepted for full refund minus a \$25 administration fee one week prior to the scheduled seminar.

Vital Force Palpation

Learn how to tap into the Vital Force by integrating Craniosacral and Visceral palpation into your Naturopathic or Acupuncture Practice. Use your hands to assess: Visceral Organ Motility, Mid Tide and Low Tide, Craniosacral Rhythm, and Core Palpation to identify and confirm effective treatment modalities. Listen to the wisdom of the body through subtle palpation to choose herbs, acupuncture points, supplements, homeopathy, identify food sensitivities, chemical sensitivities, neurotransmitter imbalances, etc. It is recommended to review, Dr. Christensen's An Integrative Approach to Craniosacral Therapy Available at the Bastyr Bookstore, prior to the class.
